About Nexora Technologies

Q: What does Nexora Technologies do?

A: Nexora Technologies develops secure, intelligent, and scalable cloud solutions that help individuals, growing teams, educational institutions, and businesses collaborate, manage information, understand business data, and provide better customer support.

Q: What is Nexora's tagline?

A: Nexora Technologies' tagline is: Smart Technology. Smarter Support.

Q: What are Nexora's primary focus areas?

A: Nexora focuses on cloud collaboration, secure document management, AI-powered business analytics, and omnichannel customer communication.

Q: Who are Nexora's primary customers?

A: Nexora serves individual professionals, startups, small and medium-sized businesses, educational institutions, and large enterprises.

Q: How are Nexora products delivered?

A: Nexora products are delivered as Software as a Service (SaaS), primarily through web, desktop, and mobile applications. Selected Enterprise deployments may include approved physical setup equipment, security keys, or configured integration devices.

Account Registration

Q: How do I create a Nexora account?

A: You can create a Nexora account by visiting the sign-up page, providing the required registration details, and following the on-screen steps to verify your account where required.

Q: Is account verification required?

A: Account verification may be required as part of the registration process to help confirm the account owner and protect account security.

Q: Can I create more than one Nexora account with the same email address?

A: Each Nexora account is associated with a unique registered email address, so a new account generally requires a different email address.

Q: Do I need a payment card to create an account?

A: No payment card is required to create a Free-plan account or to begin the 14-day Professional trial.

Login and Account Access

Q: Where do I sign in to my Nexora account?

A: You can sign in to your Nexora account through the Nexora web application, or through the desktop or mobile application for your selected Nexora product.

Q: What should I do if I cannot sign in to my account?

A: If you cannot sign in, confirm that you are using the correct registered email address and password. If you have forgotten your password, use the Forgot Password option to reset it.

Q: Why was I signed out of my account?

A: Accounts may be signed out after a period of inactivity, after a password change, or as part of routine security practices such as reviewing active sessions.

Q: Can I be signed in on multiple devices at the same time?

A: Yes, Nexora supports signing in on multiple supported devices. Reviewing your active sessions regularly is recommended as a security practice.

Password and Security

Q: What are the password requirements for a Nexora account?

A: Passwords must be a minimum of 8 characters and a maximum of 128 characters, and must include at least one uppercase letter, one lowercase letter, one number, and one special character.

Q: How do I reset my password?

A: To reset your password, go to Login, select Forgot Password, enter your registered email address, open the secure reset link sent to you, create a new password, and sign in again.

Q: Can Nexora support see or recover my existing password?

A: No. Nexora support cannot view or recover your existing password, and will never request your complete password. If you cannot access your account, use the password reset flow instead.

Q: What security recommendations does Nexora provide?

A: Nexora recommends not sharing your password, using a unique password, signing out from shared devices, reviewing your active sessions regularly, and using multi-factor authentication where available.

Q: Does Nexora support multi-factor authentication?

A: Yes, multi-factor authentication is available where supported, and its use is recommended as a security best practice, particularly for Nexora SecureVault.

Free Trial

Q: How long is the Nexora Professional free trial?

A: Nexora provides a 14-day Professional trial. No payment card is required to begin the trial. If a paid subscription is not selected, the account returns to Free-plan limits after the trial expires.

Q: Do I need to provide payment details to start the trial?

A: No. No payment card is required to begin the 14-day Professional trial.

Q: What happens to my data after the trial ends?

A: Customer data remains available subject to Free-plan limits after the trial ends. Any features or usage exceeding Free-plan limits become restricted until the account is upgraded.

Q: Does the trial include all Enterprise features?

A: No. Trial users receive access to most Professional features, but Enterprise-only functionality is excluded from the trial.

Q: Will I be charged automatically when the trial ends?

A: No. The trial does not automatically charge you unless you select a paid plan and provide payment details.

Subscription Plans

Q: What subscription plans does Nexora offer?

A: Nexora offers five plans: Free, Starter, Professional, Business, and Enterprise.

Q: Who is the Starter plan intended for?

A: The Starter plan is intended for freelancers and small teams, supporting up to 5 users.

Q: Who is the Professional plan intended for?

A: The Professional plan is intended for growing teams and businesses, supporting up to 25 users with AI-powered features and advanced analytics.

Q: Who is the Business plan intended for?

A: The Business plan is intended for larger organizations requiring administration and advanced controls, supporting up to 100 users and single sign-on.

Q: Who is the Enterprise plan intended for?

A: The Enterprise plan is intended for organizations requiring custom scale, security, integrations, and support, with pricing available through a custom quotation.

Q: Can I change plans later?

A: Yes, you can upgrade or downgrade your plan at any time from your account billing settings.

Billing and Payments

Q: What payment methods does Nexora accept?

A: Nexora accepts credit cards, debit cards, UPI, net banking, and approved business invoicing for eligible Enterprise customers.

Q: How often are subscriptions billed?

A: Monthly subscriptions renew every month, and annual subscriptions renew every year.

Q: Will I receive a receipt after payment?

A: Yes, customers receive a payment receipt by email after successful payment, and can also view invoices from their account billing settings.

Q: What happens if my payment fails?

A: A failed payment triggers an email notification, and Nexora may retry the payment during the payment-recovery period. There is a 7-day grace period during which paid features generally remain available while you update your payment method.

Q: What happens after the payment grace period ends?

A: After the 7-day grace period, paid features may be temporarily restricted, although customer data is not immediately deleted. Full eligible access is restored after successful payment.

Q: Are taxes included in the listed prices?

A: Taxes are applied to subscription charges according to applicable regulations, in addition to the listed subscription price.

Refunds

Q: How long do I have to request a refund on a monthly plan?

A: You may request a full refund within exactly 7 calendar days of your initial paid monthly purchase, subject to the conditions in the Refund Policy.

Q: How long do I have to request a refund on an annual plan?

A: You may request a full refund within exactly 14 calendar days of your initial annual purchase, subject to the conditions in the Refund Policy.

Q: Are renewal charges automatically refundable?

A: No. The standard refund windows apply only to the initial purchase and do not automatically apply to renewal charges.

Q: What if I was charged twice by mistake?

A: Verified duplicate charges and confirmed billing errors are eligible for correction or refund regardless of the standard initial-purchase refund window.

Q: How long does it take to receive an approved refund?

A: Approved refunds are initiated by Nexora within exactly 5-7 business days. Your bank, card issuer, UPI provider, or other payment provider may require additional processing time.

Q: Is cancelling my subscription the same as getting a refund?

A: No. Cancellation stops future automatic renewal but does not automatically create refund eligibility. A separate refund request must be submitted if you also want a refund.

Subscription Cancellation

Q: How do I cancel my Nexora subscription?

A: Go to Account Settings, then Billing, then Manage Subscription, then Cancel Subscription.

Q: Will I lose access immediately after cancelling?

A: No. Paid access continues until the end of your current paid billing period after cancellation.

Q: What happens to my data after I cancel?

A: Your data remains available according to Nexora's data-retention policy following cancellation.

Q: Can I resubscribe after cancelling?

A: Yes, you can resubscribe to a paid plan at any time from your account billing settings.

Nexora Products

Q: What products does Nexora offer?

A: Nexora offers four core products: Nexora CloudDesk, Nexora SecureVault, Nexora InsightPro, and Nexora Connect.

Q: Can I use more than one Nexora product at the same time?

A: Yes, Nexora products are designed to work well together, and many customers use multiple products across their subscription plan.

Q: Which Nexora product should I start with?

A: This depends on your primary need: Nexora CloudDesk for team collaboration, Nexora SecureVault for secure document storage, Nexora InsightPro for business analytics, or Nexora Connect for customer communication.

Nexora CloudDesk

Q: What is Nexora CloudDesk used for?

A: Nexora CloudDesk provides teams with a centralized digital workspace for communication, task management, file collaboration, meetings, and project organization.

Q: What platforms does Nexora CloudDesk support?

A: Nexora CloudDesk is available on web, Windows, macOS, Android, and iOS.

Q: Why are my CloudDesk tasks missing?

A: Missing tasks are often related to workspace permissions or synchronization delays. Confirm you are viewing the correct workspace and project board, and check your internet connection.

Q: Why are my files not syncing in CloudDesk?

A: File-synchronization issues are usually related to connectivity or storage limits. Confirm your internet connection is stable and that your workspace has not exceeded its storage allowance.

Nexora SecureVault

Q: What is Nexora SecureVault used for?

A: Nexora SecureVault allows customers to upload, organize, share, and protect business documents using encrypted cloud storage and permission controls.

Q: Why did my file upload fail in SecureVault?

A: Upload failures are commonly caused by exceeding your storage limit, an unstable internet connection, or an unsupported file type.

Q: How do expiring share links work in SecureVault?

A: Expiring share links allow you to share a file for a limited time. Once the link expires, it can no longer be used to access the file unless a new link is created.

Q: Can I recover a deleted file in SecureVault?

A: Yes, SecureVault includes deleted-file recovery, allowing eligible deleted files to be restored within the applicable recovery period.

Nexora InsightPro

Q: What is Nexora InsightPro used for?

A: Nexora InsightPro helps businesses transform operational data into dashboards, reports, trends, forecasts, and actionable insights.

Q: Why is my dataset upload failing in InsightPro?

A: Dataset-upload errors are often caused by unsupported column formats or file structure issues. Reviewing your file for unsupported columns and correcting the format usually resolves the issue.

Q: Why are my dashboard values incorrect?

A: Incorrect chart values are often related to a data refresh that has not yet completed, or to source data that requires correction. Refreshing the dashboard and checking the source dataset usually resolves this.

Q: Can I export data from InsightPro?

A: Yes, InsightPro includes data-export functionality for dashboards and reports.

Nexora Connect

Q: What is Nexora Connect used for?

A: Nexora Connect helps businesses manage customer conversations from multiple communication channels through a unified support workspace.

Q: Why are some customer messages missing in Connect?

A: Missing messages are often related to channel-configuration issues or email-integration delays. Reviewing your channel configuration usually resolves this.

Q: How does conversation assignment work in Connect?

A: Conversations can be assigned to specific team members, allowing your support team to manage ownership and response responsibility for each customer conversation.

Q: Can I use response templates in Connect?

A: Yes, Nexora Connect includes response templates to help teams reply to common customer questions efficiently.

Installation

Q: How do I install a Nexora application?

A: Create a Nexora account, verify it where required, select the required Nexora product, download the application through an official Nexora channel or approved application store, run the installer, and sign in.

Q: Where should I download Nexora applications from?

A: Nexora applications should only be downloaded through official Nexora channels or approved application stores.

Q: What should I do if the installer does not open?

A: Confirm that your operating system meets the minimum supported version, and that the installer file downloaded completely before trying again.

Device Compatibility

Q: What browsers are supported for the Nexora web application?

A: Nexora supports the latest two stable versions of Google Chrome, Microsoft Edge, Mozilla Firefox, and Safari.

Q: What are the minimum requirements for Nexora desktop applications?

A: Nexora desktop applications support Windows 10 or later and macOS 12 or later, with a recommended 8 GB of RAM, 1 GB of available storage, and a stable broadband connection.

Q: What mobile operating systems does Nexora support?

A: Nexora mobile applications support Android 10 or later and iOS 16 or later.

Data and Privacy

Q: How long is my data kept after I close my account?

A: After account closure, customer data is retained for exactly 30 days to support recovery. After this period, data may be scheduled for secure deletion, except where legal, billing, fraud-prevention, or regulatory records must be retained.

Q: What happens to my data if I just cancel my subscription without closing my account?

A: Your account remains active until the end of the paid billing period, and your data remains accessible according to your active plan.

Q: Is my data encrypted in Nexora SecureVault?

A: Yes, Nexora SecureVault uses encrypted cloud storage to help protect uploaded documents.

Support Channels

Q: What support channels does Nexora offer?

A: Nexora offers an AI support assistant and help center, both available 24/7, a support-ticket portal available for 24/7 submission, email support, and live support according to your subscription plan.

Q: What is the initial response target for my plan?

A: Initial response targets vary by plan: Free within 48 business hours, Starter within 24 business hours, Professional within 12 business hours, Business within 4 business hours, and Enterprise within 1 hour for critical issues.

Q: Are response targets the same as resolution guarantees?

A: No. These are initial-response targets, not guaranteed resolution times.

Complaints and Escalation

Q: How do I file a complaint with Nexora?

A: Complaints can be submitted through the support-ticket portal, describing the issue and the relevant product or billing concern.

Q: What types of complaints does Nexora handle?

A: Nexora handles complaint categories including billing disputes, repeated technical failures, product dissatisfaction, delayed support, service interruptions, data-access concerns, and staff or service-conduct concerns.

Q: How does escalation work?

A: Escalation moves through four levels: Level 1, AI assistant or standard support; Level 2, specialized support team; Level 3, senior support specialist; and Level 4, customer resolution and escalation team. Critical security or data-access concerns receive priority review.

Q: Will I receive a reference number for an escalated issue?

A: Yes, customers receive a ticket or reference ID when an issue requires formal escalation.

Service Availability

Q: What service availability does Nexora target?

A: Nexora targets 99.9% monthly service availability.

Q: Does this target include scheduled maintenance?

A: No. The availability target excludes scheduled maintenance, emergency maintenance, customer-side failures, third-party provider incidents outside Nexora's reasonable control, and force-majeure events.

Q: Will I be notified about planned maintenance?

A: Yes, planned-maintenance notifications are provided in advance where practical.

Enterprise Services

Q: What does the Enterprise plan include?

A: The Enterprise plan includes custom user limits, custom storage, custom AI capabilities, advanced analytics, custom administrative and security controls, single sign-on, a dedicated account manager, custom integrations, and enterprise support arrangements.

Q: How is Enterprise pricing determined?

A: Enterprise pricing is provided through a custom quotation based on the organization's specific requirements.

Q: Can Enterprise customers receive physical equipment?

A: Yes, selected Enterprise deployments may include approved setup equipment, security keys, or configured integration devices, covered under a 12-month limited warranty.

Q: What is the Enterprise support response target?

A: Enterprise customers receive an initial response within 1 hour for critical issues.
