1. Pricing Overview

Nexora Technologies offers five subscription plans: Free, Starter, Professional, Business, and Enterprise. Each plan is designed for a different type of customer, from individuals evaluating Nexora products to large organizations that require custom scale, security, and support. All plans provide access to Nexora's core products, with feature availability increasing at higher plan tiers.

2. Free Plan

The Free plan is intended for individuals and product evaluation. It is available at no cost and includes one user, 5 GB of cloud storage, and standard collaboration features, along with a limited AI-feature trial.

3. Starter Plan

The Starter plan is intended for freelancers and small teams. It supports up to 5 users, with 50 GB of storage per user, standard collaboration, limited advanced integrations, limited AI features, and basic administrative controls.

4. Professional Plan

The Professional plan is intended for growing teams and businesses. It supports up to 25 users, with 200 GB of storage per user, advanced integrations, AI-powered features, advanced analytics, standard administrative controls, and priority support.

5. Business Plan

The Business plan is intended for larger organizations that require administration and advanced controls. It supports up to 100 users, with 1 TB of storage per user, advanced integrations, AI-powered features, advanced analytics, advanced administrative controls, priority support, and single sign-on.

6. Enterprise Plan

The Enterprise plan is intended for organizations requiring custom scale, security, integrations, and support. It includes custom user limits, custom storage, custom AI capabilities, advanced analytics, custom administrative and security controls, single sign-on, a dedicated account manager, custom integrations, and enterprise support arrangements. Enterprise pricing is provided through a custom quotation.

7. Monthly Pricing Summary

Plan	Monthly Price
Free	₹0
Starter	₹499 per user per month
Professional	₹999 per user per month
Business	₹1,799 per user per month
Enterprise	Custom quotation

8. Annual Pricing Summary

Plan	Annual Price
Starter	₹4,790 per user per year
Professional	₹9,590 per user per year
Business	₹17,270 per user per year
Enterprise	Custom quotation

9. Annual Discount

Annual customer-facing prices are rounded and represent approximately a 20% discount compared with paying the monthly rate for twelve months.

10. Feature Comparison Table

Feature	Free	Starter	Professional	Business	Enterprise
Users	1	Up to 5	Up to 25	Up to 100	Custom
Storage per user	5 GB	50 GB	200 GB	1 TB	Custom
Standard collaboration	Yes	Yes	Yes	Yes	Yes
AI features	Limited trial	Limited	Full	Full	Custom
Advanced analytics	No	No	Yes	Yes	Yes
Advanced integrations	No	Limited	Yes	Yes	Custom
Administrative controls	No	Basic	Standard	Advanced	Custom
Single sign-on	No	No	No	Yes	Yes
Support level	Standard	Standard	Priority	Priority	Enterprise
Dedicated account manager	No	No	No	No	Yes

11. User and Storage Limits

User and storage limits scale with plan tier, from a single user on the Free plan up to 100 users on the Business plan. Enterprise customers receive custom user and storage limits negotiated as part of their agreement with Nexora.

12. AI Features and Analytics

AI-powered features are available in a limited form on the Free and Starter plans, and in full on the Professional, Business, and Enterprise plans. Advanced analytics, including trend identification and forecasting through Nexora InsightPro, is available starting at the Professional plan.

13. Administrative Controls and Single Sign-On

Administrative controls become more advanced at higher plan tiers, ranging from basic controls on the Starter plan to advanced controls on the Business and Enterprise plans. Single sign-on is available starting at the Business plan.

14. Integrations and Priority Support

Advanced third-party integrations and priority support are available starting at the Professional plan. Enterprise customers receive custom integrations built around their specific requirements.

15. Dedicated Account Manager

A dedicated account manager is provided exclusively to Enterprise customers as part of their enterprise support arrangement.

16. Free-Trial Terms

Nexora provides a 14-day Professional trial. No payment card is required to begin the trial, and trial users receive access to most Professional features, excluding Enterprise-only functionality. The trial does not automatically charge the customer unless a paid plan is selected and payment details are provided. After the trial expires, the account returns to Free-plan limits, and any usage exceeding Free-plan limits becomes restricted until the account is upgraded.

17. Billing Cycle

Monthly subscriptions renew every month, and annual subscriptions renew every year, on the anniversary of the original purchase date.

18. Payment Methods

Nexora accepts the following payment methods:

- Credit cards
- Debit cards
- UPI
- Net banking
- Approved business invoicing for eligible Enterprise customers

19. Taxes and Invoices

Taxes are applied to subscription charges according to applicable regulations. Customers receive a payment receipt by email after successful payment, and can view invoices at any time from their account billing settings.

20. Failed Payments and Grace Period

If a payment fails, Nexora sends an email notification and may retry the payment during the payment-recovery period. The failed-payment grace period is exactly 7 days. During the grace period, paid features generally remain available, customers receive payment reminders, and customers can update their payment method. After the 7-day period, paid features may be temporarily restricted, although customer data is not immediately deleted. Full eligible access is restored after successful payment.

21. Plan Upgrades

Customers can upgrade their plan at any time from their account billing settings to access additional features, users, or storage.

22. Plan Downgrades

Customers can downgrade their plan from their account billing settings. Downgrading may reduce access to features, users, or storage associated with the higher-tier plan, so customers are encouraged to review plan capabilities before downgrading.

23. Subscription Cancellation

Subscriptions can be cancelled from Account Settings, then Billing, then Manage Subscription, then Cancel Subscription. Cancellation stops future automatic renewal, and paid access continues until the end of the current paid billing period. Cancellation alone does not automatically create a refund.

24. Refund Policy Reference

Refund eligibility, including the 7-day monthly refund window and the 14-day annual refund window, is described in full in Nexora's Refund Policy document.

25. Enterprise Quotation Process

Organizations interested in the Enterprise plan can request a custom quotation. Nexora works with the organization to understand its user, storage, security, and integration requirements before providing tailored pricing and a proposed support arrangement.
